*“A good race mare is a **rare and valuable asset**, one who has taken her ownership group on a wonderful journey and created memories that last a lifetime. When that journey comes to an end, how she transitions to her next chapter matters. A **well executed sale honours her achievements**, showcases her exceptional qualities, and **maximises her value at the point of sale**, turning a sentimental farewell into a smart commercial outcome. It is the **perfect opportunity to bring the ownership group together to celebrate her racing career one last time.**”*
